Subject: Publications Application - Sport Fish - ADF&G, Alaska Department of Fish and Game: Pebble related subsistence studies available

<http://www.adfg.alaska.gov/sf/publications/index.cfm?ADFG=main.mainSearchSubmit>

Phil -

The attached link includes all but two of the subsistence studies (Braund/ADFG) you're looking for:

Technical Report 360 (year 3 of 5 years of studies)
Technical Report 355 (year 3 of 5, separate study done on Lime Village)
Technical Report 322 (year 2 of 5)
Technical Report 302 (year 1 of 5)

Fourth year report undergoing "internal" review by ADFG (and others?) and should be completed by the end of August at which time it should be added to ADFG's website.

Data (surveys) for the fifth year study - on Dillingham - just completed and it will be a year or so before the actual report drafted.

Jen/ADFG (name of the Anchorage person the Dillingham office gave me) referred me to Davin Holen/ADFG who has co-authored the reports and the best person to consult with for more details/data accessibility, etc. Davin's direct line is 267-2807 and his email davin.holen@alaska.gov.

Hope this helps.

Sue/BBNA
